

OSINT

first to download an vmware which has a features of osint:

tracelab:

<https://www.tracelabs.org/>

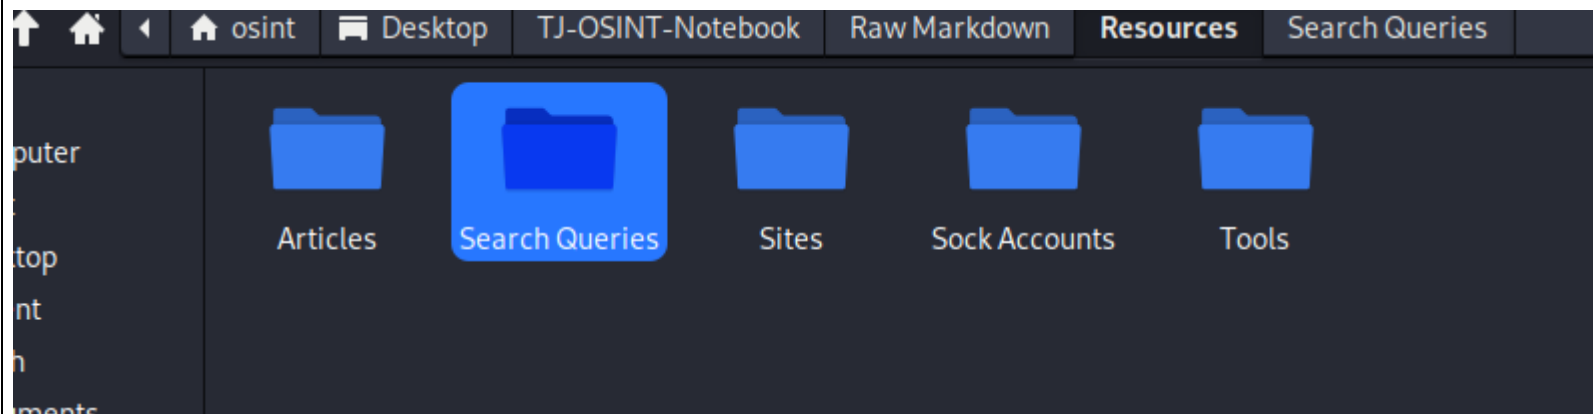

The image is a screenshot of the Trace Labs OSINT VM landing page. The page has a dark background with white and green text. At the top left is the Trace Labs logo (a circle with 'TL' inside). At the top right is a navigation bar with links: 'About', 'Initiatives', 'Supporters', 'Blog', and a green button labeled 'Get Involved'. The main heading is 'Trace Labs OSINT VM' in large white letters, followed by the subtitle 'Crowdsourced OSINT to Find Missing Persons' in green. Below this is a paragraph of text explaining the project's purpose. At the bottom center is a green button labeled 'Download OVA'.

the vmware of the osint looks like this after importing in the vmware:

Hassan Mazhar

A lot of things are builtin it:

Also these are the courses that are free you can watch and get an hands on practice as well:
